## Conditions

- Rebates are only available to **EnergySmart participants** and for the measures listed. Engagement in EnergySmart and pre-project qualification must occur **before** purchasing an eligible appliance or completing the energy efficiency project for which a rebate is being applied for.
- **Rebate funds are limited, are subject to change, and will be awarded on a first-come, first-served basis.**
- The rebate award will be based on the levels published at the time that an invoice for work completed has been submitted to EnergySmart.
- All work must be completed and invoiced between **September 1, 2023 and December 31, 2023** to qualify for these rebates.
- Multi-Family Units of 5 or more are not eligible for this rebate.
- Rebates cannot exceed the cost of the measure after all other rebates are applied.
- Rebates only available for projects completed at residences within the City of Louisville

- All upgrades must be for or directly benefit unit occupants. (e.g. Only upper units can receive an attic insulation rebate when applying for multiple unit rebates.
- All work must meet all applicable building or energy codes, and all required permits must be obtained. Combustion Appliance Zone (CAZ) testing must occur as a health/safety measure before and after the upgrade depending on the type of upgrade. *Please feel free to speak with your Advisor about the importance of CAZ testing.*
- **Fuel Switching Rebates may require additional verification** to ensure removal of gas systems. Please contact an Energy Advisor to discuss improvements and verification of these rebates. Invoices and pictures are part of the rebate process.
- † For air source heat pump (ASHPs) a thermostatic expansion valve within the appliance is required.
- \* Air sealing requirements include the sealing of the void directly above all accessible exterior top plates in attic space.
