## **EnergySmart Manufactured Homes** **Rebates**

*For Homeowners and Ownerships of Manufactured/Mobile Homes*

<b>Receive 25% of project cost up to \$400</b>	
"Cold Climate" <u>Ducted</u> Air Source Heat Pump <sup>1</sup>	HSPF $\geq 9.0$ /SEER $\geq 15.0$ /COP $\geq 1.75$ @5°F or capacity @ 5°F of at least 70% of BTU @ 47°F . Must be NEEP.org certified.
"Cold Climate" <u>Ductless</u> (Mini-Split) Air Source Heat Pump <sup>1</sup>	HSPF $\geq 10.0$ /SEER $\geq 15.0$ /COP $\geq 1.75$ @5°F or capacity @ 5°F of at least 70% of BTU @ 47°F . Must be NEEP.org certified.
<b>Receive 25% of project cost up to \$300</b>	
Electric Panel Upgrade	Must be associated with one or more upgrades listed except for portable evaporative cooler and building permit rebates.
<b>Receive 25% of project cost up to \$250</b>	
"Non-Cold" Climate <u>Ducted</u> Air Source Heat Pump <sup>1</sup>	HSPF $\geq 8.5$ /SEER $\geq 15.0$
"Non-Cold" Climate <u>Ductless</u> Air Source Heat Pump <sup>1</sup>	HSPF $\geq 8.5$ /SEER $\geq 15.0$

## Receive 25% of project cost up to \$250 (*cont.*)

Ceiling/Attic Insulation	≥ R-30 or fill ceiling/attic cavity where R-30 is not possible.
Wall Insulation	≥ R-11 or fill wall cavity where R-11 is not possible. If applying exterior rigid insulation must be added to a level of ≥ R-10.
Underbelly and Behind Exterior Skirting "Burrito" Insulation	≥ R-19 or insulate underbelly or behind exterior skirting to the maximum extent where it's not possible to reach R-19.
ENERGY STAR Electric Heat Pump Water Heater or Electric Water Heater	Heat Pump Water Heaters must be ENERGY STAR certified
All-Electric Cooktop	Only for new all-electric built-in, drop-in & freestanding units only (portable stoves not eligible). Proof of purchase and before & after installation photos required. Electric resistance to electric resistance stove replacement is not rebate eligible.
Non-portable Evaporative Cooler	Rooftop and wall mounted permanent units.
Storm Windows	Interior or Exterior
Heat Pump Clothes Dryer	Must be ENERGY STAR certified

## Receive 25% of project cost up to \$50

Permit and Building Inspection Fees	Proof of fees and the final inspection approval is required
Insulated/Cellular Shades	Proof of purchase required
Portable Heat Pump	Proof of purchase required
Portable Evaporative Cooler	Proof of purchase required
Smart Thermostat	Must be ENERGY STAR certified

## Fuel Switching Rebates \$150 per measure

Removal of Gas Furnace or Boiler	Must be replacing furnace or boiler with an electric heating option. Requires proof of removal
Removal of Gas Water Heater	Must be replacing water heater with electric water heater. Requires proof of removal

Removal of Gas Stove	Must be replacing gas stove with Electric Stove. Built-in, drop-in & freestanding units only (portable stoves not eligible). Proof of purchase, plus before & after installation photos required.
Removal of Gas Clothes Dryer	Must be replacing dryer with electric or heat pump clothes dryer

## Conditions

- Rebates are only available to **EnergySmart participants** and for the measures listed. Engagement in EnergySmart and pre-project qualification must occur **before** purchasing an eligible appliance or completing the energy efficiency project for which a rebate is being applied for.
  - **Rebate funds are limited, are subject to change, and will be awarded on a first-come, first-served basis.**
  - The rebate award will be based on the levels published at the time that an invoice for work completed has been submitted to EnergySmart.
  - All work must be completed and invoiced between **January 1, 2023 and December 31, 2023** to qualify for these rebates.
  - Rebates cannot exceed the cost of the measure after all other rebates are applied.
  - All upgrades must be for or directly benefit unit occupants.
  - All work must meet all applicable building or energy codes, and all required permits must be obtained.
  - For certain measures proof of purchase, installation, and other verification measures may be required, consult with an advisor to learn more
  - **Fuel Switching Rebates may require additional verification** to ensure removal of gas systems. Please contact an Energy Advisor to discuss improvements and verification of these rebates. Invoices and pictures are part of the rebate process.
- <sup>1</sup> For air source heat pump (ASHPs) a thermostatic expansion valve within the appliance is required.
