

This list contains contractors have worked with EnergySmart in the past, that specialize in installing electric heat pumps and heat pump hot water heaters, and typically do not install gas equipment. If you are an electrification-only contractor that would like to be added to the list, please email [info@energysmartyes.com](mailto:info@energysmartyes.com)

Residents are not limited to contractors on this list. If pursuing a centrally ducted air source heat pump, ground source heat pump residents should work with an [Xcel Energy](#) or [Efficiency Works](#) registered contractor. EnergySmart makes no representations or warranties regarding the accuracy of information, quality of service, or proof of insurance for any contractor on this list.

### Electrification Focused Contractors
