

These contractors have demonstrated interest in helping businesses complete energy-efficient projects and apply for funding from utility rebate programs and PACE incentives. Each contractor has completed at least one project under the PACE program in the past three years. The total number of rebate-eligible projects the contractor has completed through PACE is also detailed in the table.

Businesses may work with any vendor or contractor and are not limited to those on this list, however to be eligible for PACE rebates, equipment must meet minimum efficiency requirements and funds must be reserved prior to purchase/installation. **This list is ordered by the number of projects completed with us and alphabetically, and Boulder County makes no representations or warranties regarding accuracy of information, quality of service, or proof of insurance for any contractor on this list.**

For additions or corrections, please contact the Boulder County PACE hotline at 303.786.PACE.
