

WILDFIRE PARTNERS PROGRAM INFORMATION

OUTREACH & EDUCATION

BUILDING AWARENESS IN BOULDER COUNTY

Program Description

Wildfire Partners offers subject matter experts to support Boulder County community groups, fire districts, and agency partners with wildfire mitigation outreach and education.

Outreach Events

To request an event, please complete our **Wildfire Mitigation Event Request Form** located on our website or contact our team directly at wildfireoutreach@bouldercounty.gov

Presentations

We work with your organizer or host to understand your residents' knowledge level and your goals. From there, we design a presentation that addresses your community's concerns while sharing wildfire mitigation best practices through relevant examples.

A typical event generally includes a **PowerPoint presentation followed by a Q&A**. Presentations can be tailored to any audience size or event length and delivered in person, online, or in a hybrid format.

Tabling at Community Events

A Wildfire Partners team member can attend your event — such as a **picnic, festival, block party, or HOA meeting** — to host a table or mingle with residents. We provide informational handouts (and swag!), answer questions, and share wildfire mitigation best practices.

DO YOU KNOW?

Wildfire risk is year-round, and Boulder County has had wildfire evacuations every month of the year.
